

TABLE VIEW HIGH SCHOOL MISSION AND VISION STATEMENT

2024

VISION AND VALUES

I, see Table View High growing/developing into one of the "Top" schools, changing lives through education with goals that are *reality driven, inclusive and clear*.

- * providing the highest quality education
- * where ownership is shared, and
- * the principles of a partnership serves as leg support
- * we, as a team shall strive to make **TABLE VIEW HIGH** a bench-mark for other schools to strive towards.

MISSION STATEMENT

Table View High aspires to be the school of choice, where each learner, regardless of background or ability, has an opportunity to improve themselves in order to reach their full potential through a high quality education. We proudly affirm our long-standing values of honesty, respect, safety and responsibility, through embracing diversity and fostering involvement in our school family and the community.

In support of our **MISSION**, we are committed to serving:

- * **Learners** - Our learners are the reason for our existence. All our efforts are aimed at serving them. i.e. their whole personality, sense of value, spiritual/emotional/mental development etc.
- * **Educators** - To offer long-term careers and strive to create a climate in which educators are given equal opportunities to contribute and develop to their full capacities.
- * **Community** - We believe our success is directly linked to the prosperity and well-being of the community in which we find ourselves. We will make a meaningful contribution over and above our social responsibility.
- * **Parents** - We shall work closely with our parents and shall build long-term, loyal and sustainable relationships.

CHANGING LIVES THROUGH EDUCATION
